

Who We Are

Lot 9 LLC is a Service-Disabled Veteran-Owned Small Business founded in October 2022. The company began serving the veteran community in e-commerce, expanded into local service operations, and moved into information technology through a managed IT and live-streaming partnership that remains active today. We are now focused on **business-to-government technology resale** — supplying federal agencies with IT hardware, software, communications, and medical equipment through authorized distribution channels.

Our value is straightforward: agencies get a responsive, veteran-owned partner that meets socio-economic contracting goals, and we bring the catalogs of major OEMs and national distributors into set-aside channels those large firms cannot bid directly.

Core Competencies

- **IT Hardware, Software & Cloud Resale** — enterprise licensing, SaaS and subscription renewals, cloud services, and OEM hardware via authorized distribution
- **OEM Maintenance & Support Renewals** — manufacturer-certified hardware maintenance and warranty renewals (Dell EMC, HPE, Cisco, NetApp)
- **Medical & Laboratory Equipment** — ultrasound, patient monitoring, EEG/ECG, pharmacy refrigeration, and dental equipment for VA medical facilities
- **Communications Systems** — land mobile radio (LMR), satellite airtime and terminals, and cellular service plans for federal facilities
- **Managed Live-Stream & Broadcast Services** — end-to-end streaming deployment and operation, proven in continuous production since 2023

Differentiators

- ▶ **SBA VetCert-certified SDVOSB** — listed in the SBA certification database, not self-certified; eligible for VA Rule-of-Two set-asides under VAAR 852.219-73/74, in addition to full-and-open competition
- ▶ **Technical ownership.** B.S. Computer Science (2025, Dean's List, honor society); CompTIA A+, Security+, and Network+ in progress through 2026
- ▶ **Documented, measurable delivery** — multi-year client engagement with published year-over-year performance reporting
